INVESTMENT OBJECTIVES AND POLICIES

The investment objective of the Fund is to replicate the performance of the MSCI USA Islamic Universal Screened Select Index (the “**Index**”), which provides investors the opportunity to gain exposure to large- and mid-cap companies in the US equity market which comply with Shariah investment principles while integrating environmental, social and governance (“ESG”) metrics, while minimising as far as possible the tracking error between the Fund’s performance and that of the Index.

In replicating the performance of the Index, the Fund promotes certain environmental, social and/or governance characteristics (as set out in the section titled “The Index”) and has been categorised as an Article 8 fund for the purpose of the SFDR.

The Index is constructed from the MSCI USA Islamic Index (the “**Parent Index**”). The Index Provider screens all securities by applying exclusionary criteria and also applies the MSCI Universal Indexes methodology. Further detail is provided under the section titled “Index Description” section of the Supplement.

In seeking to achieve its investment objective, the Fund will aim to invest in the constituents of the Index in generally the same proportions in which they are included in the Index. The Fund promotes certain environmental, social and/or governance characteristics (as set out in the section titled “Index Description”) Information on the Index’s characteristics and the determination of sustainable investments is set out under the section titled “Index Description” below.

However, there may be circumstances when it is not possible or practicable for the Fund to invest in all constituents of the Index. Such circumstances may include (but are not limited to): (i) a limited availability of the Index constituents; (ii) trading suspensions on constituents of the Index; (iii) cost inefficiencies; (iv) if the assets under management of the Fund are relatively small, or (v) where there are internal or regulatory driven trading restrictions (as detailed in the “Investment Restrictions” and “Investment Restrictions – Other Restrictions” sections of the Prospectus) that apply to the Fund or Investment Manager but not the Index.

As a result of not investing in some of the Index constituents, the Fund may also invest in assets which are not Index constituents for the purpose of assisting in tracking the Index, namely American Depositary Receipts, European Depositary Receipts and Global Depositary Receipts which are certificates typically issued by a bank or trust company evidencing ownership of shares of a non-US issuer. These assets must be in line with Shariah Investment Guidelines provided by the Shariah Committee and advised to the Investment Manager. The Shariah Investment Guidelines used by the Shariah Committee are the international standards issued by Accounting and Auditing Organisation for Islamic Financial Institutions (AAOIFI) (specifically AAOIFI Financial Accounting Standard No. 14 Investment Funds which can be found at: www.aaofii.com/e-standards/?lang=en) in addition to the independent views of the Shariah Committee.

Most of the securities in which the Fund invests will be listed or traded on Recognised Markets, as defined in the Prospectus. Accordingly, the underlying exposure is to the issuers of equity securities included in the Index.

The indicative net asset value per Share of the Fund is available on at least one major market data vendor terminal such as Bloomberg, as well as on a wide range of websites that display stock market data, including www.reuters.com.

If the Fund assets fall below a size whereby the Investment Manager considers it is not possible to maintain a fully replicated strategy, the Investment Manager may reduce exposure to certain securities in the Index, but will aim to ensure that the Fund’s portfolio of assets will replicate the returns of the Index. However, in such circumstances, the Fund may not take exposure to all securities in the Index as the Index contains too many securities to efficiently purchase and, at times, certain securities included in the Index are difficult to purchase on Recognised Markets.

In addition to compliance with the UCITS Regulations and the applicable Central Bank requirements, investments in securities which are not constituents of the Index shall only be made if they are in accordance with the Shariah Investment Guidelines. The constituents of the Index are subject to periodic review by the Shariah Committee to ensure compliance of such securities with the Shariah Investment Guidelines. For further information on the treatment of the Fund's investments, please refer to the section below titled "**Additional Shariah Fund Information**".

The Fund may only use Shariah-compliant foreign exchange contracts (including spot and forward contracts). These FDIs may only be used for hedging purposes. Forward contracts may be used to hedge or to gain exposure to an increase in the value of an asset, currency or deposit. Foreign exchange contracts may be used to convert the currency of the underlying investments of each Fund into the Base Currency and to hedge the dividends received in a currency other than the Base Currency between a dividend ex date and the pay date.

To the extent that the Fund uses FDI, there may be a risk that the volatility of the Fund may increase. However, the Fund is not expected to have an above average risk profile as a result of its use of or investment in FDI. FDI will be used within the limits stipulated by the Central Bank and as described in "**Use of Financial Derivative Instruments**" in the Prospectus. Accordingly, although FDI may be inherently leveraged, the primary purpose of the use of FDI is to hedge currency exposure, and, although the Fund will be leveraged as a result of its investments in FDI, the Fund's global exposure (as prescribed in the Central Bank's UCITS Regulations) relating to FDI, calculated using the commitment approach, must not exceed 100% of the Fund's total Net Asset Value. The Fund does not intend to invest in warrants.

The Fund will make use of the increased diversification limits available under Regulation 71 of the UCITS Regulations and may be in a position to hold up to 35% of the Fund's Net Asset Value in one constituent of the Index issued by the same body, where necessitated to ensure accurate tracking of the index or due to exceptional market conditions (i.e. the issuer represents an unusually large portion of this market measured by the Index).

The Fund may obtain Shariah-compliant finance in accordance with the 'Borrowing Policy' section in the Prospectus. Such borrowing will be temporary and will not exceed 10% of the Net Asset Value of the Fund.

The tracking error is the annualised standard deviation of the difference between the monthly (or daily) returns of the Fund and the Index.

A series of factors may give rise to tracking error:

- Transaction costs, operating expenses, custody costs, taxes, as a result of changes in the investments of the Fund and re-weightings of the Index, corporate actions, currency fluctuations, cash flows into and out of the Fund from dividend/reinvestments and any costs and expenses which are not taken into account in the calculation of the Index.
- Internal restrictions, such as the HSBC Global Asset Management Banned Weapons Policy (as detailed in the Prospectus section: INVESTMENT RESTRICTIONS - Other Restrictions) or other market or regulatory driven trading restrictions that apply to a Fund but not the relevant Index.

Moreover, in the event of the temporary suspension or interruption of trading in the investments comprising the Index, or of market disruptions, rebalancing the Fund's investment portfolio may not be possible and may result in deviations from the returns of the Index.

The Fund is passively managed. There is no guarantee that the investment objective of the Fund will be achieved. In particular, no financial instrument enables the returns of the Index to be reproduced exactly.

The anticipated tracking error is the expected standard deviation of the differences between the returns of the Fund and the Index.

As at the date of this Supplement, the anticipated tracking error for the Fund is expected to be up to 0.10% in normal market conditions. Divergences between anticipated and realised tracking error will be explained in the annual report for the relevant period.

The anticipated tracking error for the Fund is not a guide to future performance.

The volatility level of the Fund will have a strong correlation to the volatility level of the Index.

Additional Shariah Fund Information

Shariah Committee and Shariah Team

HSBC Bank Middle East Limited and the Shariah Committee will provide advice on Shariah principles to the Management Company and the Investment Manager in relation to the Fund and an agreement is in place which governs the terms of these services.

The Shariah Committee comprises Islamic scholars with expertise in Islamic investment principles who will advise and guide the Investment Manager and the Management Company on the Fund's compliance with Shariah.

The Shariah Committee's main duties and responsibilities are to advise the Investment Manager and the Management Company on the Shariah principles that the Fund must comply with, to issue an opinion or guidelines to the Investment Manager as to whether the investments of the Fund comply with Shariah principles and to make recommendations or issue guidance to the Investment Manager as to how the Fund is managed in order to be Shariah compliant.

The Shariah Team will facilitate communication between the Shariah Committee and the Investment Manager and the Management Company; periodically assess and review the Fund's activities and investments to assess compliance with Shariah principles; and provide any reports or assistance to the Fund, the Investment Manager and the Management Company on an ad-hoc basis.

The Investment Manager and the Management Company will ensure that any provisions or references to investment methods or techniques in the Prospectus, which would otherwise be available to the Fund in pursuing its investment policy, are not availed of to the extent they are not Shariah compliant. The Shariah Committee will advise on alternative investments for the Fund which comply with the Fund's investment policy and are Shariah compliant.

The Shariah Team will review and screen the details of the Index constituents on a periodic basis and as requested to ensure compliance with the Shariah Investment Guidelines. Subject to the Fund's compliance with Shariah, as determined by the Shariah Committee, the Shariah Committee will issue an annual Shariah compliance certificate for the Fund.

The remuneration of HSBC Bank Middle East Limited and any reasonable and properly vouched out of pocket expenses will be paid by the Management Company out of the assets of the Sub-Fund in accordance with the section of this Supplement titled "**Fees and Expenses**". HSBC Bank Middle East Limited will remunerate the Shariah Committee for the services it provides in respect of the Fund. No separate fee will be payable out of the assets of the Fund to the Shariah Committee.

Banking Arrangements

Bank deposits shall be placed in Shariah-compliant accounts issued by licensed Islamic financial institutions or non-interest bearing accounts. The Fund is prohibited from investing in interest bearing deposits and recognising any interest income.

Dividend Purification

Some Shariah-compliant investments may yield small percentages of income inconsistent with Shariah principles that will then need to be "purified". Such amounts will be calculated by the Index Provider.

On an annual basis, following the approval of the Shariah Committee of the calculation of the non-permissible income for the previous financial year, the Company will donate any such non-permissible income to one or more charities selected by the Investment Manager and approved by the Shariah Committee. The allocation of non-permissible income or gains between charities, in the event of there being more than one charity shall be at the Investment Manager's sole discretion. Any charity identified for purification purposes may be changed by the Investment Manager from time to time with the approval of the Shariah Committee (where necessary) and provided that any replacement charity meets the requirements of the Central Bank. Any such change will be notified in advance to the Central Bank and the Shareholders.

The current charity selected in respect of the Fund is:

- Children In Need, registered with the Charities Commission for England and Wales having registration number 802052.

Capital gains in respect of the Fund arising out of non-Shariah-compliant investments

Where an investment is Shariah-compliant at the time of investment but subsequently ceases to be compliant with Shariah for any reason any capital gains arising from the reversal of the non-Shariah-compliant investments arising on or prior to the date on which the investment is classified by the Investment Manager, in consultation with the Shariah Committee, as non-Shariah compliant (the "Decision Date") may be retained by the Fund. However, any capital gains made on such investment after the Decision Date shall be paid to one or more charities for dividend purification purposes (selected by the Investment Manager from time to time and approved by the Shariah Committee). Valuations will be undertaken in accordance with the valuation policy of the Company as detailed in the Prospectus.

Further details on how the Investment Manager and Shariah Committee consider whether to continue holding or dispose of such investments are available to Shareholders upon request.

Subscription Monies

Cleared funds must be received by the Company in the appropriate Share Class currency, not later than by the settlement time detailed in the section titled "Subscriptions". If timely settlement is not made by the applicant the subscription may lapse and be cancelled at the cost of the applicant. If the applicant does not settle the subscription price in a timely manner, no Shares will be issued to the defaulting applicant.

Investors are advised to refer to the terms and conditions applicable to subscriptions which are detailed in the application form.

INVESTMENT RISKS

Investment in the Fund carries with it a degree of risk including the risks described under "**Risk Factors**" in the Prospectus and the specific risk factors set out below. These investment risks are not purported to be exhaustive and potential investors should review the Prospectus and this Supplement carefully and consult with their professional advisors before making an application for Shares. Investment in the Fund is not for investors who cannot afford to lose all or a significant part of their investment.

An investor should consider his/her personal tolerance for the daily fluctuations of the market before investing in the Fund.

FDI

In the event the Fund uses Shariah-compliant FDI for hedging purposes, such use may increase the risk profile of the Fund.

For information in relation to the risks associated with the use of FDI, please refer to the "**Risk Factors – Particular Risks of Financial Derivative Instruments**" section of the Prospectus.

The Index

An investment in the Fund exposes an investor to the market risks associated with fluctuations in the Index and the value of securities comprised in the Index. The value of the Index can increase as well as decrease and the value of an investment will fluctuate accordingly. There is no guarantee that the Fund's investment objective will be achieved. The Fund is subject to tracking error, as described in the Prospectus, which is the risk that its returns may not correlate accurately to those of the Index. Furthermore, any re-weighting of the Index may increase the risk of tracking error.

The past performance of the Index should not be seen as an indication of the future performance of the Index or the Fund.

Shariah Fund

Although the Fund intends to observe Shariah principles at all times, no such assurance can be given as, for example, a temporary breach of Shariah principles may occur when the Fund's investments do not fully comply with such criteria for reasons outside the control of the Fund and/ or the Investment Manager. The Fund and the Investment Manager will seek to ensure that they will do what is required in order to ensure that investments comply with the Shariah principles on or before the next rebalancing date. Further, the compliance of the Fund with Shariah principles shall be based strictly and solely upon the criteria set out in the investment policy of the Funds. Each investor and prospective investor must satisfy themselves that the Fund is compliant with Shariah.

The Fund may underperform relative to other funds with comparable investment objectives that do not seek to adhere to Shariah principles (for example, the inability to invest in interest bearing securities and/ or a range of other investments).

An investment made by the Fund may subsequently be determined, with limited or no prior notice, to not have been or, due to a change in circumstances to no longer be, Shariah-compliant in whole or in part. In such circumstances, the investment will likely continue to be held by the Fund until the next Index rebalancing date, though the Investment Manager, in conjunction with the Shariah Committee, may determine to take such other action as deemed appropriate to purify the Fund prior to the next Index rebalancing date, such as divesting the relevant security, should it be in the best interests of Shareholders. Neither the Shariah Committee nor the Investment Manager accepts responsibility in relation to any change in the status of an investment's Shariah compliance.

Cash balances held by the Fund from time to time may be deposited on terms which shall grant no return on the sum deposited or which shall grant a return on a Shariah-compliant basis.

Shariah Certification

There may be circumstances in which the Shariah Committee is unable to issue an annual Shariah certificate for the Fund, including the retirement, resignation or absence of members of the Shariah Committee or a temporary or longer-term inability by the Shariah Committee to provide the services it has been engaged to provide.

Charitable Donations

Neither the Company, the Investment Manager nor the Shariah Committee guarantee that non-permissible income paid to one or more charities will not be used by such charities for non-Shariah compliant activities or otherwise misused nor that such charities will not be declared bankrupt or otherwise cease to exist or change the purpose for which they were established.

SUBSCRIPTIONS

Initial Offer Period which is from 1 May 2025 to 31 October 2025 (or such other date as the Directors may determine) and the price of which can be obtained from the Investment Manager. Thereafter, Shares in the Fund will be issued at the Net Asset Value per Share plus an appropriate provision for Duties and Charges and in accordance with the provisions set out in the Prospectus and this Supplement.

Subscriptions through either process must be effected on the same Business Day after the Dealing Day on which settlement is sought, unless this falls on a USD Foreign Exchange Market holiday, in which case they will settle on the Business Day after the USD Foreign Exchange Market holiday.

All payments should be clearly referenced with one payment per subscription trade.

Any cash received after 15.00 (Irish time) will be deemed as late settlement and will not be moved to the Fund account until the following Business Day. In such an event the investor shall indemnify the Company and the Administrator for any loss suffered as a result of the investor's failure to transmit subscription monies in a timely fashion. The Depositary is not liable for any loss suffered due to the late payment of subscription proceeds to the Fund.

CONVERSIONS

A conversion request will be treated as a cash redemption request in respect of the original Class of Shares and as a cash subscription application in respect of the new Class of Shares in this Fund or in any other sub-fund of the Company. On this basis and provided the original Class of Shares and the new Class of Shares have the same base currency, Shareholders will be entitled on any Dealing Day to apply to convert any or all of their Shares of any Class in the Fund into Shares of another Class in the Fund or any other sub-fund of the Company except where dealings in the relevant Shares have been temporarily suspended in the circumstances described in the Prospectus and where the Dealing Deadlines are different for the Class of Shares in the sub-funds of the Company being converted. Please refer to the terms and conditions regarding subscriptions and redemptions of the relevant Fund Supplements.

When requesting the conversion of Shares as an initial investment in a sub-fund of the Company, Shareholders should ensure that the aggregate Net Asset Value per Share of the Shares converted is equal to or exceeds any minimum holding for the relevant sub-fund. In the case of a conversion of a partial holding only, the value of the remaining holding must also be at least equal to any minimum holding for the relevant sub-fund. If the number of Shares of the new Class to be issued on conversion is not an integral number of Shares, the Company may issue fractional Shares of the new Class or return the surplus arising to the Shareholder seeking to convert the Shares of the original Class.

Conversions will attract a Conversion Transaction Fee, being the fee payable to the Administrator as agent for the Company where, as part of a conversion of Shares, Shares are redeemed for cash and subsequently invested for cash in a different sub-fund of the Company. The fee payable is deducted from the redemption proceeds at the same rate as the Conversion Transaction Fee as specified in the relevant Fund Supplement of the subscribed for sub-fund.

REDEMPTIONS

Shareholders in the Fund may effect a redemption of Shares at the Net Asset Value per Share less an appropriate provision for Duties and Charges on any Dealing Day, provided that a written redemption request is signed by the Shareholder and received by the Administrator no later than the Dealing Deadline on the relevant Dealing Day in accordance with the provisions of the “**Subscriptions, Valuations and Redemptions**” section of the Prospectus. Settlement for cash transactions will take place in accordance with the Prospectus and settlement of in-kind transactions will take place within 10 Business Days of the relevant Dealing Day.

As per the provisions set out in the Prospectus, redemptions proceeds (in-kind and/or in cash) will only be released where the Administrator holds full original anti-money laundering documentation.

FEES AND EXPENSES

For details of the fees and expenses payable by the Fund please refer to the “**Fees and Expenses**” section in the prospectus.

The total annual fees and operating expenses of the Classes (except for transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the Fund) (the “**Total Expense Ratio**” or “**TER**”) are shown in the table below. The TER shall accrue daily and be payable monthly in arrears. The Management Company will absorb (by reimbursement to the account of the Fund) any additional fees, costs or expenses over the Total Expense Ratio. The fees, costs and expenses which the Total Expense Ratio covers are set out in the next paragraph.

INDEX DESCRIPTION

This section is a summary of the Index and is not a complete description of the Index.

General

The Fund will aim to replicate the net total return performance of the Index.

The Index is an equity index based on the Parent Index and which reflects Shariah investment principles and includes large and mid-cap securities of the US equity markets as determined by the Index Provider.

The methodology for the Parent Index follows Shariah investment principles and applies stringent screens to exclude securities based on two types of criteria: (i) companies that are directly active in, or derive more than 5% of their revenues from such business activities as alcohol, tobacco, pork-related products, conventional financial services, defense/weapons, gambling, or adult entertainment; and (ii) financial ratios derived from total assets, the purpose of which is to prohibit investment in companies which are highly leveraged or which derive significant income from interest.

The Index is constructed from the Parent Index by applying the following values- and climate-based exclusionary criteria to screen all securities (as defined by the Index Provider in the Index methodology):

- Controversial weapons;
- Nuclear weapons;
- Civilian firearms;
- Tobacco
- Thermal Coal power;
- Thermal Coal mining;
- Oil Sands extraction;
- Oil Sands Reserves Ownership; and
- All companies that fail to comply with the United Nations Global Compact principles

Each of the exclusionary criteria may apply thresholds which are defined by the Index Provider and set out in the Index methodology and which may be amended from time to time.

MSCI Universal methodology

In addition to the application of the exclusionary criteria, the Index applies the MSCI Universal Indexes methodology to achieve its ESG objective.

The use of the MSCI Universal Indexes Methodology in the construction of the Index is to increase exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile, while seeking to minimise exclusions from the Parent Index.

To achieve this, the Index Provider applies the following steps to the Parent Index: (i) the Index Provider excludes the securities with the weakest ESG profile from the Parent Index; (ii) the Index Provider defines an ESG re-weighting factor that reflects an assessment of both the current ESG profile, based on the current MSCI ESG Rating, as well as the trend in that profile; and (iii) the Index Provider re-weights securities from the free-float market cap weights of their parent index using this combined ESG score to construct the Index. Further information on the Index Provider's ESG re-weighting factors and the MSCI ESG Rating system can be found on the Index Provider's website.

The Index is constructed by excluding securities based on the following criteria:

- Unrated Companies – Companies not assessed by MSCI ESG Research on MSCI ESG controversies;
- Missing ESG Rating – Companies not rated by MSCI ESG Research for an ESG assessment;
- Severe ESG controversies - Companies having faced very severe controversies pertaining to ESG issues in the last three years; and
- Companies Involved in controversial weapons businesses companies involved in controversial weapons (i.e. cluster munitions, landmines, depleted uranium weapons, biological/chemical weapons, blinding lasers, non-detectable fragments and incendiary weapons), as defined by the methodology of the MSCI Ex-Controversial Weapons Indexes.

The composition of the Index is rebalanced on a semi-annual basis and carried out according to the published rules governing the management of the Index as set out by MSCI Inc.
