a sub-fund of HSBC Global Liquidity Funds Plc, (the "UCITS");
 managed by HSBC Investment Funds (Luxembourg) S.A.

Class:A
 ISIN:IE00BF4N1C86

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide security of capital, daily liquidity and a return that is similar to US dollar treasury markets.

Investment Policy:

The Fund invests in a diversified portfolio of US government money market instruments. These instruments will be short-term fixed or floating-rate securities that mature in 397 days or less. They will be issued by the Government of the United States. The weighted average portfolio maturity of the Fund will not exceed 60 days. The weighted average portfolio life of the Fund will not exceed 120 days. The Fund's investments will, at the time of purchase, have a credit rating of least A-1 or P-1 (or its equivalent) from a recognised credit rating agency, such as Standard & Poor's or Moody's. The Fund may only invest in securities that are denominated in (or hedged back into) US dollars. The Fund can invest in a range of US government money market instruments such as: US treasury – bills, notes and bonds. The Fund

may invest in reverse repurchase agreements. The Fund may also invest in cash and money market instruments (including overnight time deposits).

The Fund may also invest in financial derivative instruments. The Fund may use them for hedging purposes.

Risk and Reward Profile

The risk and reward indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why is this Fund in this specific category?

This Fund is classified in category 1 because its price or simulated data has shown very low fluctuations historically.

Material risks not fully captured by the Risk and Reward Indicator:

- ◆ **Counterparty Risk** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.

- ◆ **Exchange Rate Risk** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- ◆ **Investment Leverage Risk** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- ◆ **Liquidity Risk** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- ◆ **Money Market Fund Risk** The Fund's objective may not be achieved in adverse market conditions. During times of very low interest rates, the interest received by the Fund could be less than the costs of operating the Fund.
- ◆ **Operational Risk** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.

Charges

The charges you pay are used to pay the running costs of the Fund, including the marketing and distribution costs. These charges reduce the potential growth of the investment.

| One-off charges taken before or after you invest | |
|---|-------|
| Entry charge | 0.00% |
| Exit charge | 0.00% |
| This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. | |
| Charges taken from the Fund over a year | |
| Ongoing charge | 0.20% |
| Charges taken from the Fund under certain specific conditions | |
| Performance fee | None |

Past Performance

- ◆ The entry and exit charges shown are the maximum that may be charged. In some cases you may pay less. You can obtain the actual charges from your financial adviser.
- ◆ The Fund may charge a Liquidity Fee of up to 3.00% of the Net Asset Value per Share at the discretion of the Directors, if other shareholders will suffer as a result of the cost of the transaction. This fee will be retained by the fund for the benefit of all remaining shareholders.
- ◆ A conversion charge may be payable.
- ◆ The ongoing charges figure is based on last year's expenses for the year ending 30/04/2023. Charges may vary from year to year.

Further information on Charges can be found in the "Charges and Expenses" section of the Fund's Prospectus.

- ◆ Past performance is not a guide to future performance; the value of your investment and any income from it can go down as well as up.
- ◆ Performance returns are based on the net asset value with distributable income reinvested. Past performance takes account of all ongoing charges but not entry, exit or conversion charges.
- ◆ The past performance of this share class is calculated in USD.
