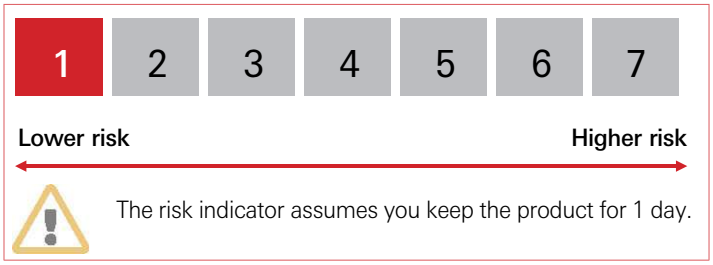
What are the risks and what could I get in return?

Risk Indicator



The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Additional risks not included in the Summary Risk Indicator (SRI) include: Liquidity, Counterparty, Operational, Investment Leverage and Exchange Rate Risk. Please refer to the prospectus for other risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 1 day **Investment of USD 10,000**		**If you exit after 1 day**
Minimum	The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested.	
Stress Scenario	What you might get back after costs	USD 10,000
	Percentage return	-0.04 %
Unfavourable Scenario	What you might get back after costs	USD 10,000
	Percentage return	0.00 %
Moderate Scenario	What you might get back after costs	USD 10,000
	Percentage return	0.01 %
Favourable Scenario	What you might get back after costs	USD 10,010
	Percentage return	0.06 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between May 2020 and June 2020. The moderate scenario occurred for an investment between September 2019 and September 2019. The favourable scenario occurred for an investment between January 2024 and January 2024. A suitable benchmark was used where the Fund had insufficient history.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations.

In the event of a bankruptcy or insolvency of the Depositary or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

How long should I hold it and can I take money out early?

Recommended Holding Period: 1 day

Investment in this Fund may be appropriate for investors who plan to invest over a very short term. There are no penalties if you wish to redeem your holdings in the Fund prior to the recommended holding period. The Fund may, in exceptional circumstances, employ certain tools and techniques to protect investors from stressed market conditions or from the detrimental effect of large inflows or outflows. These tools help to reduce the impact of dilution and ensure that transaction costs are borne more fairly by investors when entering or exiting the fund. Investors may see a price adjustment or, in more severe cases, may face delays in or a suspension of the processing of subscriptions or redemptions. More detail can be found in the prospectus. The Fund may charge a Liquidity Fee of up to 3% of the Net Asset Value per Share, at the discretion of the Directors, if other shareholders will suffer as a result of the cost of the transaction. This fee will be retained by the Fund for the benefit of all remaining shareholders. An exit fee may be applicable, please refer to the "Composition of Costs" table for details.
